Bank & Trust

Member FDIC **My** neighborhood. **My** bank.

Setup

Locate Apple Pay
For iPhone, you can find **Apple Pay** in your **Settings**. For Apple Watch, open the Watch app on your iPhone, tap Wallet, then tap your card to see the Device Account Number.
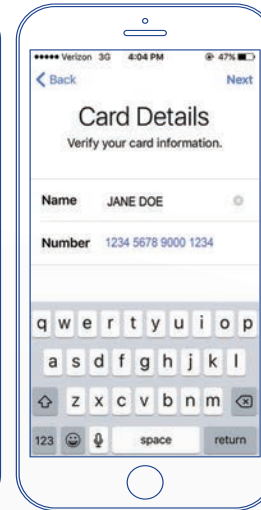

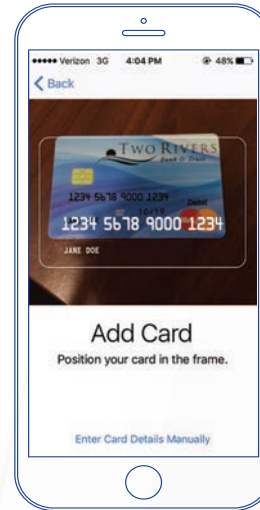

Add Card
Tap **Add Credit or Debit Card**. Complete verification method using the fingerprint previously registered in your device.
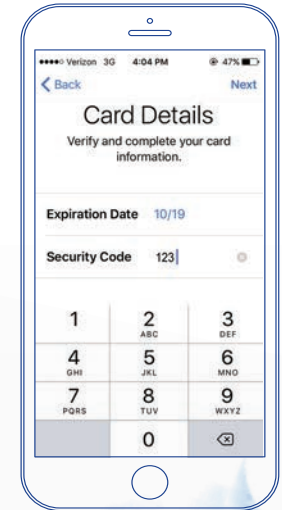

Card Details
Tap **Add Card** and follow the instructions. If you're asked to add the card that you use with iTunes, just enter its security code. Position your card in the frame or click to manually enter card details.

Complete Authorization
Confirm the expiration date and enter the 3 digit security code found on the back of your card. **Agree** to the terms and conditions. Enter signature and tap **Save**.
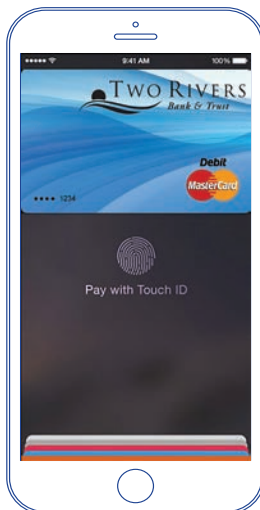

We have Mobile Wallet for Android, too!
You must have Android version 4.4 or above and you can find more information about your device by visiting **android.com/pay** or **samsung.com/samsung-pay**
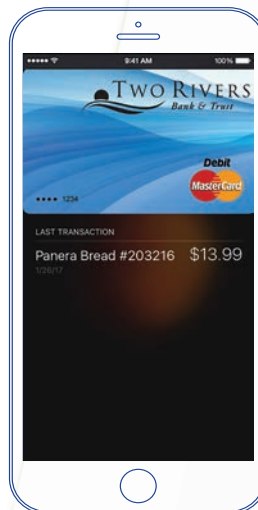

Payment

Ready to pay?
To use your default card, rest your finger on Touch ID and hold your iPhone within an inch of the contactless reader until you see Done and a checkmark on the display. **Confirm** card details.

All finished!
Depending on the store and the transaction amount, you might need to sign a receipt or enter your pin. You can find your transaction listed in your app menu.

Stop in and see us anytime

There's only so much you can learn by reading about our services. The invitation is always open.
